Dear PCBO Community,

Applications are now open for the 2025 BPI Training Program!

Business Process Improvement (BPI) is a structured approach to defining a process, analyzing a predetermined scope of work, and improving its performance.

The Business Process Improvement (BPI) training program aims to encourage a culture of continuous improvement on campus. Participants will learn BPI methodology over an intensive, six-week training program while practicing with actual CSUSM processes.

This program is ideal for employees who are the "do-ers" in their respective areas, such as Administrative Coordinators, Analysts, and Entry-level Managers. **Applications are open through June 30**. More information, including time commitment information, schedule, and application form, may be found on the **BPI Website**. This is a FREE program!

If you have any questions regarding the BPI program, please contact Andrea Wilson at **awilson@csusm.edu**.

Thank you!
FAS Administration
