Axiom login instructions – VSTO Installer

Follow.when.prompted.by.VSTO.error

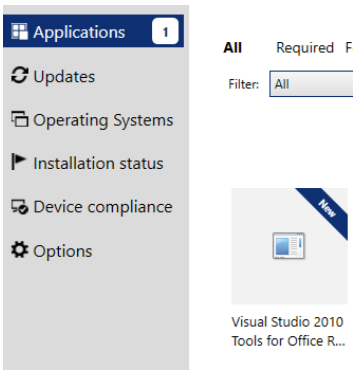

1. Search for Software Center in the Windows search bar and select the Software Center app:

You can also get to Software Center by going to the folder on your desktop labeled “IITS Self Help”. Folder contains a shortcut to Software Center.

2. Select "Visual Studio 2010 tools for office runtime" in the software center (this won’t show up if it’s already installed on your computer):

3. Run Installer following prompts, then resume Axiom install instructions.
