

AI FUNDAMENTALS
FOR WORKING PROFESSIONALS

- Earn a certificate of completion
- Build skills that support smarter, faster work
- Leave with an AI workflow that adds value immediately

Build Real AI Skills in One Day

WHO'S IT FOR?

This beginner-friendly workshop is designed for working professionals who want to understand AI, see how it works and put it to use. No technical background required.

WORKSHOP HIGHLIGHTS

- Learn the basics of generative AI in nontechnical language
- Practice essential prompting techniques for workplace tasks
- Explore business use cases specific to your professional role
- Spot errors, bias and limitations in AI-generated responses
- Navigate key issues in AI ethics, privacy and security

ABOUT THE INSTRUCTOR

Amber N. Yoo is a professor at California State University San Marcos specializing in generative AI adoption. She leads AI initiatives for the College of Business Administration and teaches Foundations of Generative AI and Applied AI for Marketing, bringing real-world applications directly into the classroom.

Saturday,
September 12, 2026
10:00 AM - 2:00 PM

California State University
San Marcos Campus
