PROGRAM OVERVIEW

The **Project Management Professional (PMP) credential** is the gold standard in project management and your key to unlocking senior leadership opportunities. PMP certification demonstrates your commitment to professional excellence and advanced project management skills.

This comprehensive 14-week program is designed specifically for experienced project managers ready to advance their careers. You'll master advanced PM methodologies through expert-led instruction, interactive discussions and hands-on projects — all delivered in convenient online sessions.

WHAT'S INCLUDED

Take the certificate courses in sequence from start to finish or jump in and get started at any point! New courses begin every eight weeks.

- **35 Hours of PMI-approved Education** covering all three PMP exam domains, including agile/hybrid and predictive methodologies
- **Expert instruction from certified PMP professionals** with real-world experience
- **Complete CertWise® Learning System** with online study tools and full-year access
- **Structured learning environment** to keep you on track for exam success
- **Peer networking opportunities** with professionals from diverse industries
- **3.5 continuing education units (CEUs)** for professional development
- **Small cohort format** for personalized attention and interactive discussions

WHO'S THIS COURSE FOR?

This intensive program is designed for project management professionals with **3+ years of project leadership** experience who are ready to take their careers to the next level.

- **Project Managers**
  Seeking the industry's most recognized certification
- **Program Managers**
  Looking to formalize their advanced skills and methodologies
- **Team Leaders and Supervisors**
  Ready to transition into formal project management roles
- **Consultants and Contractors**
  Who need PMP credentials to land premium opportunities
- **Operations Managers**
  Wanting to add project management expertise to their skill set
- **Career Changers**
  With transferable leadership experience entering the PM field
