CSUSM MBA Program – Coursera Certificate Opportunities

As part of our commitment to lifelong learning and professional development, the **CSUSM MBA Program** provides students with access to **Coursera Career Academy**. This resource offers a variety of industry-recognized certificates designed to enhance skills and career readiness.

Current MBA students have full access to these Coursera certificates, and alumni will continue to have access for up to **one year after graduation**. While these courses are **not part of the MBA curriculum**, they serve as an additional opportunity to gain valuable skills and credentials that can strengthen job prospects and career advancement.

Below is the list of available Coursera certificates through this program.
